### DEFINITIONS

**PEACE (n):** 1) a state of tranquility or quiet; 2) freedom from disquieting or oppressive thoughts or emotions; 3) harmony in personal relations.

### QUOTES

"All we could ever imagine, could ever hope for, He is. He is the Prince of Peace whose first coming has already transformed society but whose second coming will forever establish justice and righteousness. All this, and infinitely more, alive in an impoverished baby in a barn. That is what Christmas means – to find in a place where you would least expect to find anything you want, everything you could ever want."

... Michael Card

"As we feel the calamities of war more than the pleasures of peace, and diseases more than the quietness of health, and the hardness of poverty more than the commodities of abundance; even so we ought not to marvel if we feel the stings and pricks of sin a great deal more than the consolations of the righteousness of Jesus Christ."

... Daniel Cawdray

"God cannot give us happiness and peace apart from Himself, because it is not there. There is no such thing."

... C.S. Lewis
